DIGITAL TOOLS TO SUPPORT FARM MANAGEMENT

ERMES
AN EARTH OBSERVATION MODEL BASED RICE INFORMATION SERVICE

Agri-notebook: a digital field book !
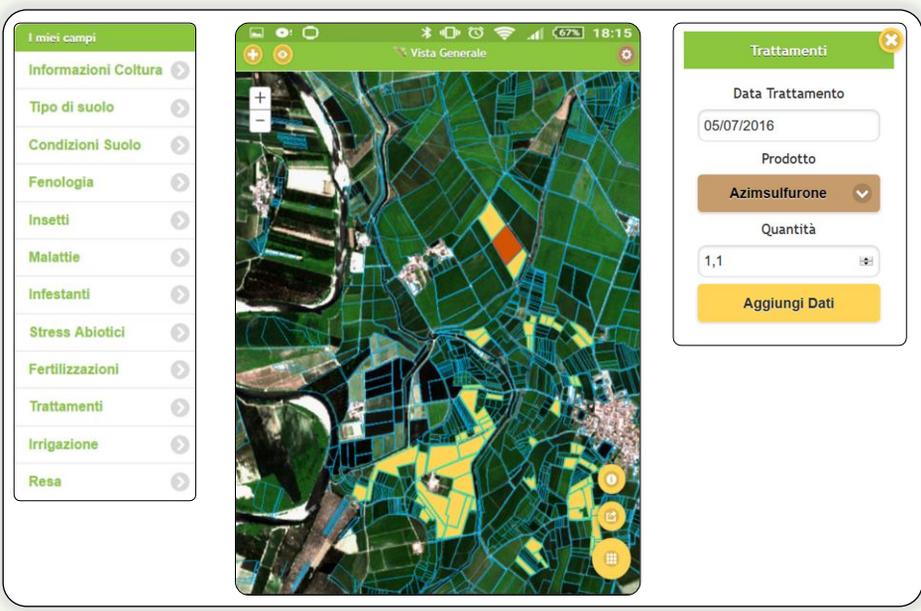

An application for smartphones and PCs that allows to keep track of your management activities (sowing, fertilization, weeding...), and to record (and share) information on the status of your field (weeds, pests, damages, phenological development...) !

ERMES GeoPortal: a web application to visualize information about the status of your fields !

A web app that allows to easily visualize all available info about your fields.

Satellite images, variability maps, modelling results and the info that you collected and provided using *Agri-notebook* can be easily visualized and analysed within a single, easy to use interface.
